**Message for the
Clerk of the
Committee*:**

Please forward this email to all committee members

**My message of
support for HB
5225, HB 5498,
HB5499*:**

Please adopt the substitute language and pass an amended HB 5225 along with HB 5498 and HB 5499.. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

My message of support for HB 5225*:

Thank you for taking the time to read this. I would like to request that you please adopt the substitute language and pass an amended HB 5225. Our state has enough budget problems and Michigan's permit system is duplicative of the Federal NICS system. Why should a citizen be requiree to take time off of work (a loss of income and income tax) to process paperwork that is not needed? Since most Police departments will not issue permits after 4:30 or on weekends that is what we are forced to do. Please streamline this system and support this bill. Make a positive difference save the State and individuals money.
Thank you.

I live in*: Auburn Hills

My email*: thomasrossman@yahoo.com

**Message for the
Clerk of the
Committee*:**

Please forward this email to all committee members

**My message of
support for HB
5225*:**

Please adopt the substitute language and pass an amended HB 5225. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

Message for the Clerk of the Committee*: Please forward this email to all committee members

My message of support for HB 5225*: Please DO NOT adopt the substitute language and pass an amended HB 5225. The voters of Michigan need to see their representatives focused on the major problems facing the State, not being distracted by small side issues. Bring this back up when the State economy has been turned around. Thanks,

Bernard
